

NUDE FOOD DAY CONTINUES

For many years, JEM, our school environment group, has been committed to encouraging Glendal parents to send their children to school with wrapper free snacks and lunches.

In 2021, as part of our Zero Waste Pledge, we developed and introduced a waste reduction initiative called Nude Food Day (NFD). Nude food is food that is not packaged or in a plastic or paper bag (please see the example of a nude food lunch above).

JEM is excited that Nude Food Day is continuing at Glendal!

What is Nude Food Day and How Does it Work?

Every Wednesday at Glendal is Nude Food Day. On Nude Food Day, classes are encouraged to count how many students have brought nude food. Each class enters their number into a special Google sheet and the class (or classes) with the highest percentage of nude food students receives a thrilling reward.

The Foundation to Year 2 class or classes with the best nude food score get to host our JEM Mascot, Pingu the Penguin, for several days.

The Year 3/4, and also the Year 5/6, class or classes with the best score get to look after one of our JEM Potted Plants. They also get to host one of the NFD Koalas, which were named Astley and Pretton by our 2021 Year 6 cohort.

JEM is encouraging everyone to get involved in Nude Food Day. On Wednesday, we can't wait to see how many students have brought a nude snack and lunch to help the environment!
